

## Lab Rotation Form for 16:682:611/612/613

Laboratory Rotations: Students should contact three different Microbial Biology faculty members and arrange research rotations. <http://www.microbiology.rutgers.edu/faculty.html>

### **The Lab Rotation dates in 2017-18 are:**

Course	Starting Date	Finish Date	Report Due
611	September 18	November 10	November 17
612	November 13 January 2	December 15 January 19	January 26
613	January 22	March 23	March 30

All rotations are 8 weeks long

612 includes a two week break for final exams and the holidays

613 includes a week off for Spring Break

If you work over the holidays and during Spring Break for your second and third rotations you will have more time to complete a research project and get a better sense of the research goals of that laboratory.

Please fill out the Rotation Form prior to the start of each rotation, and return a signed copy to Lindsay Robinson (Lipman Hall 223A). Immediately following each lab rotation a written report should be submitted by email to Gerben Zylstra ([zylstra@sebs.rutgers.edu](mailto:zylstra@sebs.rutgers.edu)). The written report should summarize the research performed for the rotation: background, specific aims/hypotheses, results, and discussion. The report should be approximately one page of single spaced text.
