

## Lab Rotation Form for 16:682:611/612/613

Laboratory Rotations: Students should contact three different Microbial Biology faculty members and arrange research rotations. <http://www.microbiology.rutgers.edu/faculty.html>

### The Lab Rotation dates in 2020-21 are:

Course	Starting Date	Finish Date	Report Due
611	September 14	November 6	November 13
612	November 9 January 4	December 11 January 22	January 29
613	January 25	March 26	April 2

All rotations are 8 weeks long

612 includes a three week break for final exams and the holidays

613 includes a week off for Spring Break

If you work over the holidays and during Spring Break for your second and third rotations you will have more time to complete a research project and get a better sense of the research goals of that laboratory.

Please fill out the Rotation Form prior to the start of each rotation, and return a signed copy to Ms. Lindsay Vasy (Lipman Hall 223A or [lindsay.vasy@rutgers.edu](mailto:lindsay.vasy@rutgers.edu)). Electronically signed and emailed applications are encouraged. Immediately following each lab rotation a written report should be submitted by email to Gerben Zylstra ([zylstra@sebs.rutgers.edu](mailto:zylstra@sebs.rutgers.edu)). The written report should summarize the research performed for the rotation: background, specific aims/hypotheses, results, and discussion. The report should be approximately one page of single spaced text.
